

KEY HIGHLIGHTS

Problem Solving: Extend & Own the Problem

Resource person: GuruSetu faculty facilitator (not identified) | Facilitator; individual attribution remains unavailable because the video provides no caption track or speaker metadata.

Problem Solving: Extend & Own the Problem | Career Progression | careers

01

The official transcript, transcript control, and closed captions are unavailable for this upload.

02

The opening card says: Problem Solving, Module 2: developing skills to identify the real problem.

03

The public title refers to extending the definition and owning the problem.

04

Because the card and title differ, a detailed content summary would go beyond the available evidence.

05

Speaker credit is absent from the card and public metadata.

06

Treat 'identify the real problem' as card-verified. 'Extend' and 'own' remain title-level themes.

07

While watching, record the facilitator's definitions, examples, scope boundaries and meaning of ownership.
