

KEY HIGHLIGHTS

Teaching in the Social Media Age

Resource person: Joseph Cossette | Physics and physical-science teacher, Minnetonka High School | Curated from TEDx Talks

Teaching in the Social Media Age | Digital Platforms for Teaching | technology

01

Cloud documents and one-to-one devices have made constant collaboration feel ordinary.

02

Easy retrieval changes which knowledge needs fluency and which can be located when needed.

03

Visible approval and notifications create a persistent competition for student attention.

04

A memorable classroom event earns its place through a clear learning purpose.

05

Selective feeds can reinforce existing beliefs and circulate weak claims.

06

Teachers help students evaluate abundant information, build connections and create with it.
